Hello,

I have recently received an email from someone offering to buy my Chrome Extension for "a lot of money". This is not the first email I have received of someone offering to give me money for my extension This specific scammer has tried contacting me from another email address (contact@bloxunits.com). It is very obvious that these people are scammers because all my extension does is replace the logo on the Roblox website with an older version of the Roblox logo. It's a very simple extension. The domain is bloxtensions.com

A screenshot of the scam email is attached.

P.S. contact@sego.app is my public email for contacting me, that's why I am sending this email from sego@sego.app
