Hello, I am re-contacting you in regards to your Roblox chrome extension known as Old Roblox Logo

Sorry, our other email was broken and we weren't able to receive inbox messages.

I would like to purchase ownership of the extension because my team is interested in updating and growing your extension with new features.

I have a very big budget and I will pay you a lot of money for the extension.

I can also pay you with ANY payment method you want, I'll trust you and pay you first before you give ownership.

If you are interested in selling your extension to me, please let me know so we can discuss it further.
